

February 5, 2010

The Honorable Charles Terreni  
Chief Clerk/Administrative  
Public Service Commission of South Carolina  
P. O. Drawer 11649  
Columbia, South Carolina 29211

RE: Area Lighting Service Schedule ALS, Street Lighting Service Schedule SLS and the  
Street Lighting Service Regulations  
SCPSC Docket No. 2010-34-E

Dear Mr. Terreni:

Enclosed is a copy of Progress Energy Carolinas, Inc.'s Area Lighting Service Schedule ALS-13A, Street Lighting Service Schedule SLS-13A and Street Lighting Service Regulations (Revised March 1, 2010) which were approved in Order No. 2010-116 dated February 3, 2010. These revised tariffs are effective for service rendered on and after March 1, 2010.

Very truly yours,

Len S. Anthony  
General Counsel  
Progress Energy Carolinas, Inc.

## STREET LIGHTING SERVICE REGULATIONS

### 1. SERVICE AGREEMENT

In order to assure certainty and uniformity of conditions, Company will only supply street lighting service under its uniform Service Agreement, consisting of (1) the Application for Street Lighting Service, (2) the applicable Schedule, and (3) the Street Lighting Service Regulations.

### 2. DEFINITIONS

- (a) Dusk is a period before nightfall and in the illumination of lamps it will be considered as being approximately 30 minutes after sunset.
- (b) Dawn is a period after daybreak and in the illumination of lamps it will be considered as being approximately 30 minutes before sunrise.
- (c) A special street lighting pole or post is any standard Company-owned pole or post installed as a part of its overhead street lighting system and on which no other Company overhead distribution facilities are installed or a pole or post installed as a part of its underground street lighting system. If another utility or company has overhead conductors or equipment installed on a Company-owned pole or post used by Company only for street lighting, such pole or post will be classified as a special street lighting pole; however, if Company installs its overhead street lighting equipment on a pole or post owned by another utility, such pole or post will not be classified as a special street lighting pole or post.
- (d) A system street lighting pole is a system distribution pole on which Company has attached both street lighting and overhead distribution facilities or a pole installed in conjunction with the street lighting system to which only overhead distribution facilities are attached.
- (e) A system street lighting metal pole is a metal pole on which Company has attached both street lighting and overhead distribution facilities or a metal pole installed in conjunction with the street lighting system to which only overhead distribution facilities are attached.

### 3. EXTENSIONS AND ADDITIONS

Company will extend its street lighting system to supply additional lighting units at Customer's request and install the additional lighting units insofar as practical, in accordance with good engineering practice, at the locations Customer designates. If any overhead lighting unit is more than 500 feet from the next adjacent lighting unit or Company has to extend its secondary overhead distribution system more than 500 feet, the Customer will make a nonrefundable contribution to Company equal to the estimated installed cost of the new circuit in excess of 500 feet.

### 4. CHANGE IN FIXTURE STYLE, LIGHT SOURCE OR LAMP LUMEN RATING

At Customer's request, Company will, at no cost to Customer, change the fixture, pole or post style or color at the same location provided the facilities to be replaced have been in service for 20 years or longer and the contract term for the new facilities is extended. The appropriate term shall be as described in the Contract Period paragraph stated in the Street Lighting Service Schedule. If the facilities to be changed to a different style or color have been in service less than 20 years, Customer shall pay a charge of \$50 if only the fixture is changed or \$500 if the facilities to be changed includes

the pole or post. If the request requires a change in the overall lighting design and layout and the fixture or pole are not installed in the same location, in addition to the fixture and pole change charge for an underground installation, Customer shall pay the estimated installed cost of the new underground circuit in excess of 250 feet plus any abnormal construction costs.

5. RELOCATION OF FACILITIES

If the Company's street lighting facilities are installed within its rights-of-way or easements, upon Customer's request Company will relocate such facilities to a new location within the same general area provided Customer will pay to Company any applicable charge as set forth in the Termination of a Service Agreement paragraph shown below. A new Contract Term shall not be required. If the relocation request involves both lighting and other distribution facilities, the cost of the relocation of all facilities shall be determined pursuant to the Line Extension Plan.

6. RIGHTS-OF-WAY

Customer shall furnish, without cost to Company, satisfactory rights-of-way or franchise for Company to install its street lighting circuits and necessary equipment. Customer will be responsible for trimming trees and other vegetation that obstruct the light output from the fixture(s) or maintenance access to the facilities.

7. CONTINUITY OF SERVICE

Company will exercise due diligence and reasonable care and foresight to maintain continuity of service as provided in the Service Agreement, but shall not be considered to be in default in respect to any obligation under the Service Agreement if prevented from fulfilling such obligation by reason of uncontrollable forces or by reason of outages of facilities for repair, replacement or inspection, provided due diligence was used to limit such outages, and provided such outages, except in emergencies, were conducted upon a reasonable prearranged schedule; the term "uncontrollable forces" shall be deemed for the purposes of this Agreement to mean earthquake, storm, lightning, flood, backwater caused by flood, fire, epidemic, accident, failure of facilities, war, riot, civil disturbance, strike, labor disturbance, restraint by an order of court or public authority, or other causes beyond the control of Company, which by exercise of due diligence and foresight Company could not reasonably have been expected to avoid. When Company is rendered unable to fulfill any obligation by reason of uncontrollable forces Company will exercise due diligence to remove such disability with reasonable dispatch.

8. BURNED OUT OR BROKEN LAMPS

Company will use reasonable diligence to see that all lamps are burning each night but does not guarantee the lamps against burn outs and breakage. Customer will be responsible for notifying Company of any and all lamps which are not burning according to schedule and Company shall have until dusk of two business days following notice to replace the lamps. If Customer has given Company written notice and Company fails to so replace the lamps designated in the notice within such two business days, then, upon request by Customer, there shall be a pro rata reduction of the "Monthly Rate" charge per fixture.

When a pro rata reduction of the "Monthly Rate" charges is to be made, the lamp or lamps will be considered as burning until the day on which Company was first notified in writing by Customer and the amount of the "Monthly Rate" charges to be billed will be determined by multiplying the "Monthly Rate" charges by the ratio of the number of days in the month which the lamp actually burned to thirty days.

9. DAMAGE TO COMPANY FACILITIES

Customer shall protect Company's wiring, apparatus, lighting fixtures, and poles covered by the Service Agreement from damage or harm. In the event of any loss or damage to such property of Company caused by or arising out of carelessness, neglect, or misuse by Customer, his employees or agents, the cost incurred by Company to repair the facilities shall be paid by Customer.

10. CONFLICTS

In case of conflict between any provision of a street lighting schedule and these Street Lighting Service Regulations, the provisions of the street lighting schedule shall prevail.

11. NONSTANDARD FACILITIES

At the request of the Customer the Company may consent to install street lighting facilities, using Company approved equipment, which has not been established as a system standard subject to Customer paying to Company a Monthly Facilities Charge as determined under Company's filed Service Regulations.

The Company may, at its own discretion and without additional cost to Customer, install facilities on an experimental basis without adopting such facilities as standards.

12. DELINQUENT BILLS

Any bill not paid within 15 days from date of the bill shall be deemed to be delinquent and Company shall have the right at any time thereafter to discontinue the supply of electricity provided that (1) Company has notified Customer to pay any one or all of the delinquent bills and (2) Company has given Customer the required written notice of its intention to discontinue the supply of electricity.

13. TERMINATION OF A SERVICE AGREEMENT

If Customer desires to terminate all or a portion of the facilities installed pursuant to the Service Agreement, Company will agree to such termination if Company is satisfied that Customer no longer has need for street lighting service. If such termination request occurs before the expiration of the initial contract term, Company will agree to such termination and remove its facilities provided Customer pays an amount of money equal to 40% of the bills which otherwise would have been rendered for the unexpired months of the initial Contract Period.

14. AMENDMENT OF A SERVICE AGREEMENT

If and when mutually agreed upon, a lighting unit or pole may be added or removed from the street lighting system or the size of the lamp may be changed. Any change made under this paragraph shall be evidenced by a written memorandum.

If Company extends its general distribution system so as to use special street lighting poles for distribution poles or removes its distribution facilities from a pole used for street lighting purposes, Company shall so notify Customer of the poles affected and appropriate adjustments will be made in the rendering of monthly bills.

Superseding Street Lighting Service Regulations dated October 11, 2004

Effective Date: March 1, 2010

SCPSC Docket No. 2010-34-E, Order No. 2010-116

STREET LIGHTING SERVICE  
SCHEDULE SLS-13A

AVAILABILITY

This Schedule is available for service supplied in the lighting of dedicated public streets, highways, municipally owned and operated public parking lots, and municipally owned and operated public parks by lighting fixtures mounted on Company-owned poles or government-owned traffic signal poles. This Schedule is also available for continuous service to other installations which were being served on April 1, 1973, under superseded Schedules SL-1G and SL-2C.

SERVICE

The service supplied by Company will include the installation of a street lighting system, according to Company's standards and requirements, which will be owned, maintained and operated by Company, including the furnishing of the electricity required for the illumination of the lamps from dusk to dawn. The lumen ratings of lighting units listed under the Monthly Rate indicate the general class of lamp.

MONTHLY RATE

1. Overhead Service

Basic Rate: The basic rate per fixture defined below will be billed for installations of standard street lighting fixtures. The basic rate does not include the monthly charges for additional facilities, street lighting poles, underground service, or any contribution required under this Schedule and under the Street Lighting Service Regulations.

| <u>Sodium Vapor Units</u>  | <u>Monthly Charge Per Fixture</u> |
|--|-----------------------------------|
| 5,800 lumen  | \$6.03                            |
| 9,500 lumen  | 8.46                              |
| 16,000 lumen   | 11.61                             |
| 28,500 lumen   | 15.17                             |
| 50,000 lumen   | 18.10                             |
| <u>Metal Halide Units</u>  |                                   |
| 9,000 lumen  | \$12.01                           |
| 20,000 lumen   | 16.58                             |
| 33,000 lumen   | 20.72                             |
| 110,000 lumen  | 41.46                             |
| <u>Lighting Fixtures – No Longer Available to New Applicants</u> |                                   |
| 7,000 lumen semi-enclosed (Mercury Vapor) <sup>1</sup>           | \$ 8.74                           |
| 7,000 lumen (Mercury Vapor) <sup>1</sup>                         | 9.37                              |
| 12,000 lumen (Retrofit Sodium Vapor) <sup>1</sup>                | 9.88                              |
| 21,000 lumen (Mercury Vapor) <sup>1</sup>                        | 14.80                             |
| 22,000 lumen (Sodium Vapor) <sup>2</sup>                         | 12.71                             |
| 38,000 lumen (Retrofit Sodium Vapor) <sup>1</sup>                | 15.20                             |
| 40,000 lumen (Metal Halide) <sup>3</sup>                         | 21.29                             |
| 60,000 lumen (Mercury Vapor) <sup>1</sup>                        | 25.36                             |

- <sup>1</sup> Not available for new installations. Upon failure of the fixture or ballast, the fixture shall be replaced at no charge with a similar style fixture as shown in the table below and the monthly rate for the new fixture will apply:

| Restricted Lumen Classification | Default Replacement Classification |
|---------------------------------|------------------------------------|
| 7,000 lumen MV                  | 9,500 lumen HPS                    |
| 21,000 lumen MV                 | 28,500 lumen HPS                   |
| 60,000 lumen MV                 | 50,000 lumen HPS                   |
| 12,000 lumen RSV                | 9,500 lumen HPS                    |
| 38,000 lumen RSV                | 28,500 lumen HPS                   |

- <sup>2</sup> Not available for new installations, except to existing customers for additional units of the same type on the same or contiguous property.

- <sup>3</sup> Not available for new installations, unless available in inventory. Upon failure of a 40,000 lumen fixture, it will be replaced at no charge with a similar style 33,000 lumen fixture and the monthly rate for the new fixture will apply.

## 2. Overhead Service to Light Emitting Diode (LED) Lighting

The basic rate per fixture defined below will be billed for installations of PEC-approved lighting fixtures installed on Company's system distribution poles. Upon notification by Customer that 35% or greater of the light emitting diodes contained within the fixture are not burning, Company will perform as soon as practicable, during regular working hours, the necessary maintenance to restore illumination. The basic rate does not include the monthly charges for additional facilities, special lighting poles or posts, underground service, or any contribution required under this Schedule.

### A. LED Basic Rate (Standard Option):

| <u>Fixture</u>       | <u>Monthly Charge Per</u> | <u>Monthly kWh Per</u> |
|----------------------|---------------------------|------------------------|
|                      | <u>Fixture*</u>           | <u>Fixture</u>         |
| LED 75               | \$7.00                    | 25                     |
| LED 105              | 10.00                     | 35                     |
| LED 215              | 15.00                     | 73                     |
| LED 205 Site Lighter | 15.00                     | 69                     |

\* In addition to the Basic Rate, Customer shall pay a monthly charge of 2.0% times the cost difference between the estimated installed cost of a PEC-approved fixture and the basic LED fixture cost allowance for the stated lumen category in accordance with the ADDITIONAL FACILITIES paragraph below. The monthly charge shall not be less than zero.

- B. LED Basic Rate (Customer-Ownership Option): Customer shall provide a PEC-approved LED fixture at no cost to Company for installation on Company's system distribution poles. Customer retains full ownership of the fixture and after removal from service will be picked up by the Customer. The basic rate defined below will be billed for installation, operation and maintenance of Customer-owned lighting fixture. Customer shall provide a replacement fixture, if required, to maintain the lighting service.

| <u>Fixture</u>       | <u>Monthly Charge Per</u> | <u>Monthly kWh Per</u> |
|----------------------|---------------------------|------------------------|
|                      | <u>Fixture</u>            | <u>Fixture</u>         |
| LED 75               | \$5.13                    | 25                     |
| LED 105              | 5.54                      | 35                     |
| LED 215              | 6.95                      | 73                     |
| LED 205 Site Lighter | 6.82                      | 69                     |

3. Underground Service

For underground service, the monthly bill will be increased by \$3.55 per pole or, in lieu thereof, a one-time contribution of \$177.50 per pole. The monthly pole charge, if selected, may be terminated at any time upon payment by Customer of the one-time contribution. The monthly pole charge defined below will also be applicable to underground service.

4. Special Street Lighting Poles or Posts

|  | <u>Monthly Charge<br/>Per Pole or Post</u> |
|--|--|
| Wood   | \$1.40                                     |
| Metal*, Fiberglass, or Post                  | 2.80                                       |
| 12 Foot Concrete Post**                      | 10.00                                      |
| 16 Foot Concrete Post**                      | 11.00                                      |
| Decorative Square Metal                      | 13.10                                      |
| 13 Foot Fluted Concrete Post**               | 15.00                                      |
| Decorative Aluminum 12 Foot Post             | 18.00                                      |
| Decorative 35- or 39-Foot Tapered Metal Pole | 28.58                                      |
| System Metal                                 | 0.90                                       |

\* Metal will be installed in locations where fiberglass cannot be used as determined by Company.

\*\* Concrete posts will not be available for new installations on and after August 1, 2007. Concrete posts or similar material posts, as determined by Company, will be offered in accordance with the Additional Facilities paragraph.

For overhead installations of Special Metal and System Metal poles prior to June 1, 1982, the monthly charge will be \$1.80 and \$0.60, respectively.

5. Masterpiece Series Standard Facilities

Masterpiece Series Standard Facilities are deluxe decorative fixtures, posts, and brackets that are normally maintained in inventory by Company to meet the lighting needs of customers. The MONTHLY RATE for Masterpiece Series Standard Facilities is as follows:

Masterpiece Series Fixtures: In addition to the MONTHLY RATE Item 1, for a 9,000 or 9,500 lumen fixture, Customer pays:

|                              |        |
|------------------------------|--------|
| Masterpiece Series A Fixture | \$3.00 |
| Masterpiece Series B Fixture | \$5.00 |

Masterpiece Series Decorative Posts:

|  |         |
|--|---------|
| Masterpiece Series A 12-Foot decorative metal post | \$18.00 |
| Masterpiece Series A 16-Foot decorative metal post | \$22.00 |

Masterpiece Series Bracket:

|  |        |
|--|--------|
| Masterpiece Series A Twin Mounting Bracket | \$7.50 |
|--|--------|

### ADDITIONAL FACILITIES

1. Multiple street lighting fixtures may be installed per pole subject to Company's review and approval. The monthly charge for each additional fixture will be the charge in accordance with the MONTHLY RATE for that fixture plus 2% of the estimated installed cost of the facilities necessary to serve the multiple fixture installation in excess of that normally required to provide standard street lighting service.
2. For distribution transformer and/or primary conductor extension, 2% of the estimated installed cost of the required facilities.
3. For a bracket or mast arm in excess of six feet for underground service or 16 feet for overhead service, 2% of the estimated installed cost of the required facilities in excess of that for standard facilities.
4. For an underground circuit, each conductor span in excess of 250 feet for a street lighting pole, 2% of estimated installed cost of the excess circuit. Customer has the option of making a non-refundable contribution of the estimated installed cost of an underground circuit in excess of 250 feet per span in lieu of paying the monthly additional facilities charge for such excess circuit.
5. For special nonstandard poles and posts not listed as standard items above in MONTHLY RATE, 2% of the estimated installed cost of overhead or underground poles or posts. For nonstandard fixtures not included in the MONTHLY RATE provision above, the monthly charge will be the charge in accordance with the MONTHLY RATE for that fixture plus 2% of the difference between the estimated installed cost of the nonstandard fixture and the estimated installed cost of the equivalent standard fixture.

### NONREFUNDABLE CONTRIBUTION

1. In the event that rock, unstable soil, or other conditions require the use of materials and methods of installation other than Company's normal materials and methods, Customer will contribute the additional cost except when the Service Extension Provision as stated below is applicable.
2. Customer will contribute the estimated cost of installing cables under paved or landscaped surface areas; however, Customer may cut and replace the pavement or surface in lieu of making the contribution.
3. Service supplied under the MONTHLY RATE in this Schedule does not include the conversion of existing overhead street lighting circuits to underground. Should Customer desire such a conversion under this Schedule, Customer will pay to Company, in addition to the applicable contribution and charges herein, the estimated net investment depreciated, plus removal cost, less salvage value of the overhead conductor being removed.

### SERVICE EXTENSIONS

For street lighting installed as part of and at the same time as other Company facilities, the contributions normally required for Underground Service and abnormal soil conditions under Nonrefundable Contribution Item 1, if any, will be in accordance with Line Extension Plan E. The installation of lighting fixtures or poles shall be in a location that is readily accessible by a Company truck to support installation and maintenance of Company facilities.

### FUEL AND DSM/EE ADJUSTMENT

Fuel and related environmental costs as set forth in Rider No. 39Z and demand side management and energy efficiency costs as set forth in Rider DSM/EE-1 are included in the above charges and are subject to adjustment by order of the Public Service Commission of South Carolina. The rates applicable under Rider DSM/EE-1 are provisional and are therefore subject to true-up with interest upon further review by the Office of Regulatory Staff and the Public Service Commission of South Carolina.

### SALES AND FRANCHISE TAX OR PAYMENT IN LIEU THEREOF

To the above charges will be added any applicable South Carolina sales tax, and for those customers within any municipal or other local governmental jurisdiction, an appropriate amount to reflect any franchise fee, business license tax, or similar percentage fee or tax, or charge in lieu thereof imposed by such entity.

### PAYMENTS

Bills are due when rendered and are payable within 15 days from the date of the bill. If any bill is not so paid, the Company has the right to suspend service in accordance with its Service Regulations. In addition, effective on and after January 1, 1989, any bill not paid on or before the expiration of twenty-five (25) days from the date of the bill is subject to an additional charge of 1.5% per month as provided in Rule 103-339(3) of the Rules and Regulations of the South Carolina Public Service Commission.

### CONTRACT PERIOD

The Contract Period shall not be less than the following:

- (1) Ten years for standard and Masterpiece Series standard fixtures, poles, and posts, and
- (2) Twenty years for service utilizing fixtures, poles, and posts determined by Company as nonstandard or custom-designed.

### GENERAL

Service rendered under this Schedule is subject to the provisions of Company's Street Lighting Service Regulations filed with the state regulatory commission.

Supersedes Schedule SLS-13

Effective for bills rendered on and after March 1, 2010

SCPSC Docket No. 2010-34-E, Order No. 2010-116

AREA LIGHTING SERVICE  
SCHEDULE ALS-13A

AVAILABILITY

This Schedule is available for service supplied in the lighting of outdoor areas, private streets, and private driveways by means of mercury vapor, metal halide, and sodium vapor lighting units. Lighting units will be bracket-mounted on Company-owned poles and the mercury vapor lamps will be color corrected.

This Schedule is not available for the lighting of dedicated streets or highways.

SERVICE

Prior to installing area lighting facilities, Customer and Company must enter into an agreement for Area Lighting Service. The service supplied by Company will include the installation and operation, according to Company standards and requirements, of the area lighting units and will include the furnishing of electricity required for the illumination of the lamps from dusk to dawn. Company will perform as soon as practicable, during regular working hours, the necessary maintenance to restore illumination after Customer has notified Company that a lamp is not burning. The lumen rating of the lighting units listed under the MONTHLY RATE indicates the class of lamp.

MONTHLY RATE

1. Overhead Service

Basic Rate: The basic rate per fixture defined below will be billed for installations of standard area lighting fixtures installed on Company's system distribution poles. The basic rate does not include the monthly charges for additional facilities, area lighting poles, underground service, Masterpiece Series Standard Facilities, or any contribution required under this Schedule.

| <u>Sodium Vapor Units</u> | <u>Monthly Charge Per Fixture</u> |
|---------------------------|-----------------------------------|
| 5,800 lumen               | \$ 6.65                           |
| 9,500 lumen               | 10.50                             |
| 16,000 lumen              | 12.58                             |
| 28,500 lumen              | 16.70                             |
| 50,000 lumen              | 21.01                             |
| 50,000 lumen flood        | 23.56                             |
| <u>Metal Halide Units</u> |                                   |

Lighting Fixtures – No Longer Available to New Applicants

|  |         |
|--|---------|
| 7,000 lumen semi-enclosed (Mercury Vapor) <sup>1</sup> | \$ 7.99 |
| 7,000 lumen (Mercury Vapor) <sup>1</sup>               | 9.46    |
| 12,000 lumen (Retrofit Sodium Vapor) <sup>1</sup>      | 11.87   |
| 21,000 lumen (Mercury Vapor) <sup>1</sup>              | 14.40   |
| 21,000 lumen flood (Mercury Vapor) <sup>1</sup>        | 17.80   |
| 22,000 lumen (Sodium Vapor) <sup>2</sup>               | 13.45   |
| 38,000 lumen (Retrofit Sodium Vapor) <sup>1</sup>      | 16.07   |
| 40,000 lumen (Metal Halide) <sup>3</sup>               | 24.64   |
| 60,000 lumen (Mercury Vapor) <sup>1</sup>              | 28.18   |
| 60,000 lumen flood (Mercury Vapor) <sup>1</sup>        | 30.57   |

<sup>1</sup> Not available for new installations. Upon failure of the fixture or ballast, the fixture shall be replaced at no charge with a similar style fixture as shown in the table below and the monthly rate for the new fixture will apply:

| Restricted Lumen Classification | Default Replacement Classification |
|---------------------------------|------------------------------------|
| 7,000 lumen MV                  | 9,500 lumen HPS or 9,000 lumen MH* |
| 21,000 lumen MV                 | 20,000 lumen MH                    |
| 60,000 lumen MV                 | 33,000 lumen MH                    |
| 12,000 lumen RSV                | 9,500 lumen HPS                    |
| 38,000 lumen RSV                | 28,500 lumen HPS                   |

\* A 9,500 lumen sodium vapor fixture shall be the default replacement if a comparable style 9,000 lumen metal halide fixture is unavailable.

<sup>2</sup> Not available for new installations, except to existing customers for additional units of the same type on the same or contiguous property.

<sup>3</sup> Not available for new installations, unless available in inventory. Upon failure of a 40,000 lumen fixture, it will be replaced at no charge with a similar style 33,000 lumen fixture and the monthly rate for the new fixture will apply.

2. Overhead Service to Light Emitting Diode (LED) Lighting

The basic rate per fixture defined below will be billed for installations of PEC-approved lighting fixtures installed on Company's system distribution poles. Upon notification by Customer that 35% or greater of the light emitting diodes contained within the fixture are not burning, Company will perform as soon as practicable, during regular working hours, the necessary maintenance to restore illumination. The basic rate does not include the monthly charges for additional facilities, special lighting poles or posts, underground service, or any contribution required under this Schedule.

LED Basic Rate:

| <u>Fixture</u>       | <u>Monthly Charge Per<br/>Fixture*</u> | <u>Monthly kWh Per<br/>Fixture</u> |
|----------------------|--|------------------------------------|
| LED 75               | \$7.00                                 | 25                                 |
| LED 105              | 10.00                                  | 35                                 |
| LED 215              | 15.00                                  | 73                                 |
| LED 205 Site Lighter | 15.00                                  | 69                                 |

\* In addition to the Basic Rate, Customer shall pay a monthly charge of 2.0% times the cost difference between the estimated installed cost of a PEC-approved fixture and the basic LED fixture cost allowance for the stated lumen category in accordance with the ADDITIONAL FACILITIES paragraph below. The monthly charge shall not be less than zero.

3. Underground Service

For underground service, the monthly bill will be increased by \$3.55 per pole or, in lieu thereof, a one-time contribution of \$177.50 per pole. The monthly pole charge, if selected, may be terminated at any time upon payment by Customer of the one-time contribution. The monthly pole charge defined below will also be applicable to underground service.

4. Special Area Lighting Poles and Posts

A special area lighting pole or post is any Company-owned pole or post, except those installed under Additional Facilities Item No. 4 below, installed as a part of an area lighting system and on which no other Company overhead distribution facilities are installed except those necessary to provide service to an area lighting system, or a pole or post installed as a part of a Company-owned underground area lighting system.

|  | <u>Monthly Charge<br/>Per Pole or Post</u> |
|--|--|
| Wood   | \$2.25                                     |
| Metal*, Fiberglass, or Post                  | 5.20                                       |
| 12-Foot Smooth Concrete Post**               | 10.00                                      |
| 16-Foot Smooth Concrete Post**               | 11.00                                      |
| Decorative Square Metal                      | 13.10                                      |
| 13-Foot Fluted Concrete Post**               | 15.00                                      |
| Decorative Aluminum 12 Foot Post             | 18.00                                      |
| Decorative 35- or 39-Foot Tapered Metal Pole | 28.58                                      |

\* Metal will be installed in locations where fiberglass cannot be used, as determined by Company.

\*\* Concrete posts will not be available for new installations on and after August 1, 2007. Concrete posts or similar material posts, as determined by Company, will be offered in accordance with the Additional Facilities paragraph.

5. Masterpiece Series Standard Facilities

Masterpiece Series Standard Facilities are deluxe decorative fixtures, posts, and brackets that are normally maintained in inventory by Company to meet the lighting needs of customers. The MONTHLY RATE for Masterpiece Series Standard Facilities is as follows:

Masterpiece Series Fixtures: In addition to the MONTHLY RATE Item 1, for a 9,000 or 9,500 lumen fixture, Customer pays:

|                              |        |
|------------------------------|--------|
| Masterpiece Series A Fixture | \$3.00 |
| Masterpiece Series B Fixture | \$5.00 |

Masterpiece Series Decorative Posts:

|  |         |
|--|---------|
| Masterpiece Series A 12-Foot decorative metal post | \$18.00 |
| Masterpiece Series A 16-Foot decorative metal post | \$22.00 |

Masterpiece Series Bracket:

|  |        |
|--|--------|
| Masterpiece Series A Twin Mounting Bracket | \$7.50 |
|--|--------|

### ADDITIONAL FACILITIES

1. Multiple area lighting fixtures may be installed per pole subject to Company's review and approval. The monthly charge for each additional fixture will be the charge in accordance with the MONTHLY RATE for that fixture plus 2% of the estimated installed cost of the facilities necessary to serve the multiple fixture installation in excess of that normally required to provide standard area lighting service.
2. For distribution transformer and/or primary conductor extension, 2% of the estimated installed cost of the required facilities.
3. For an underground circuit, each conductor span in excess of 250 feet for an area lighting pole, 2% of the estimated installed cost of the excess circuit. Customer has the option of making a nonrefundable contribution of the estimated installed cost of an underground circuit in excess of 250 feet per span in lieu of paying the monthly facilities charge for such excess circuit.
4. For special nonstandard poles and posts not listed above in MONTHLY RATE, 2% of the estimated installed cost of the poles or posts. For nonstandard fixtures not included in the MONTHLY RATE provision above, the monthly charge will be the charge in accordance with the MONTHLY RATE for that fixture plus 2% of the difference between the estimated installed cost of the nonstandard fixture and the estimated cost of the equivalent standard fixture.
5. For a bracket or mast arm in excess of the standard facilities for a given fixture type, 2% of the estimated installed cost of the required facilities in excess of that for standard facilities.

### NON-REFUNDABLE CONTRIBUTION

1. In the event that rock, unstable soil, or other conditions require the use of materials and methods of installation other than Company's normal materials and methods, Customer will contribute the additional cost except when the Service Extension Provision as stated below is applicable.
2. Customer will contribute the estimated cost of installing cables under paved or landscaped surface areas; however, Customer may cut and replace the pavement or surface in lieu of making the contribution.
3. Service supplied under the MONTHLY RATE in this Schedule does not include the conversion of existing overhead secondary conductors to underground. Should Customer desire such a conversion under this Schedule, Customer will contribute to Company, in addition to the applicable contributions above, the estimated net loss in salvage value of the overhead facilities being removed. The Customer will thereafter pay the applicable rate for underground service.

### SERVICE EXTENSIONS

For area lighting installed as part of and at the same time as other Company facilities, the contributions normally required for Underground Service and abnormal soil conditions under Nonrefundable Contribution Item 1, if any, will be in accordance with Line Extension Plan E. The installation of lighting fixtures or poles shall be in a location that is readily accessible by a Company truck to support installation and maintenance of Company facilities.

### FUEL AND DSM/EE ADJUSTMENT

Fuel and related environmental costs as set forth in Rider No. 39Z and demand side management and energy efficiency costs as set forth in Rider DSM/EE-1 are included in the above charges and are subject to adjustment by order of the Public Service Commission of South Carolina. The rates applicable under Rider DSM/EE-1 are provisional and are therefore subject to true-up with interest upon further review by the Office of Regulatory Staff and the Public Service Commission of South Carolina.

### SALES AND FRANCHISE TAX OR PAYMENT IN LIEU THEREOF

To the above charges will be added any applicable South Carolina sales tax, and for those customers within any municipal or other local governmental jurisdiction, an appropriate amount to reflect any franchise fee, business license tax, or similar percentage fee or tax, or charge in lieu thereof imposed by such entity

### PAYMENTS

Bills are due when rendered and are payable within 15 days from the date of the bill. If any bill is not so paid, the Company has the right to suspend service in accordance with its Service Regulations. In addition, effective on and after January 1, 1989, any bill not paid on or before the expiration of twenty-five (25) days from the date of the bill is subject to an additional charge of 1.5% per month as provided in Rule 103-339(3) of the Rules and Regulations of the South Carolina Public Service Commission.

### CONTRACT PERIOD

The initial Contract Period for lighting units shall be one of the following:

- (1) One year when the lighting unit will be mounted on Company's existing distribution pole (excluding temporary service poles), no more than one additional span of overhead secondary conductor is required, and no additional facilities are required;
- (2) Three years for overhead service other than those which comply with the one-year term provisions, and (4) or (5) does not apply; or
- (3) Five years for underground service; or
- (4) Ten years for service to all Masterpiece Series facilities and for service utilizing fixtures, poles, and posts determined by Company as Special Order nonstandard; or
- (5) Twenty years for service utilizing fixtures, poles, and posts determined by Company as Custom Design nonstandard.
- (6) For temporary lighting facilities, the Customer shall pay the total estimated installed cost plus removal costs minus salvage value of the facilities installed to provide such service in lieu of a Contract Period.

The Contract Period shall extend from year to year thereafter until terminated by Customer or Company. Customer may terminate the Agreement before the expiration of the initial Contract Period by paying to Company a sum of money equal to 40% of the bills which otherwise would have been rendered for the unexpired months of the initial Contract Period.

Company may require Customer to initially make a termination deposit which will not exceed the termination amount computed in accordance with the above paragraph. Such termination deposit will be refunded in equal amounts at the end of each full year service is rendered. This annual refund will be the termination deposit divided by the number of years in the Contract Period.

**GENERAL**

Service rendered under this Schedule is subject to the provisions of Company's Service Regulations filed with the state regulatory commission.

Supersedes Schedule ALS-13

Effective for bills rendered on and after March 1, 2010
